

## MOSQUITO SURVEILLANCE

**Table 2.** Summary of adult mosquito surveillance through September 24, 2019.

Mosquito species	Totals through Sep 9, 2019				Comments
	Arbovirus-positive pools				
	WNV	LAC	SLE	ZIKA	
<b>Culex</b>	0	0	0	0	
<b>Non-Culex</b>	0	0	0	0	
<b>Total</b>	0	0	0	0	

WNV=West Nile Virus Infection      LAC= La Crosse Encephalitis      SLE= St. Louis Encephalitis      ZIKA= Zika Virus Disease

**Figure 2.** Counties under active mosquito surveillance as of September 24, 2019. 'Positive' means mosquito sample tested positive for virus responsible for WNV, LAC, SLE or ZIKA. 'Negative' means virus responsible for WNV, LAC, SLE, or ZIKA was not detected in the mosquito sample.

## VETERINARY TICK SURVEILLANCE

**Table 3.** West Virginia Veterinary Tick Surveillance Project (WVSTP) cumulative tick identification as of October 4, 2019.

Tick species	# of ticks submitted and identified	Animal host
<i>Amblyomma americanum</i>	17	Canine, Feline
<i>Amblyomma maculatum</i>	1	Canine
<i>Dermacentor variabilis</i>	270	Canine, feline, equine
<i>Haemaphysalis leporispalustris</i>	5	Rabbit
<i>Haemaphysalis longicornis</i>	46	Canine, feline
<i>Ixodes cookei</i>	12	Canine, Feline
<i>Ixodes dentatus</i>	11	Rabbit
<i>Ixodes scapularis</i>	96	Canine, Feline
<b>Total</b>	<b>431</b>
